And a short drive through Winton Wetlands. It was originally known as Lake Mokoan by the traditional owners and has a contentious history.

Between 1967 and 1971 a 7.5 k rock wall was built to flood the wetland and make a reservoir for irrigation. This drowned roughly 200,000 mature river red gums the remains of which you will see to this day.

It was eventually decommissioned between 2004 and 2009 by the Vic Govt. due to the high evaporation rate (was very shallow). This led to a lot of community protest. Today it is undergoing restoration and is the largest wetlands restoration project in the southern hemisphere. Unfortunately the river red gums cannot be brought back to life.

Late lunch at Glenrowan – own arrangements for lunch. You may just want a snack as dinner is at 6.00pm.

Have a look at town, including new Ned Kelly Museum.

Return at leisure to Motel.

MONDAY 12 OCTOBER 2026

OPTION 1:

I have booked seats at the Red Stag and Deer farm at 324 Hughes Lane, Eurobin 3739, 03 5756 2365, just out of Myrtleford for lunch or just have a cuppa.

There is a turn off not far from the Chiltern turnoff. Not far from here we take a left turn towards Beechworth and then we go to Myrtleford onto the Alpine way where we turn left.

No mapping has been done for this. Just follow the signs.

Just out of Myrtleford we turn right onto Hughes Lane.

If you would like to do this option please SMS me on 0413 135 779 to secure a seat at the Red Stag and Deer Farm.

Plan is to leave the Motel at 10 am and head down the Hume towards Melbourne.

Turn left out of the Motel and turn right at the lights. Follow this road and stay right and cross over the Hume Highway and here you turn right onto the Hume Highway.

OPTION 2:

Those that don't wish to go to the Red Stag Restaurant return home in your own time. Perhaps lunch at Euroa Service Centre for lunch

We trust everyone had an enjoyable time and look forward to 2027 wherever ACTTC are planning to send us.
